AND METHOD FOR DETECTING
MOTION VECTOR

STATEMENT OF SUBSTANCE OF INTERVIEWS

COMMISSIONER FOR PATENTS
ALEXANDRIA, VIRGINIA 22313

SIR:

Applicants wish to thank Examiner Sofocleous for the courtesy of the telephone discussion with Applicants' representative on August 10, 2009, at which time the Examiner requested authorization to enter an Examiner's Amendment to place the present application in condition for allowance. In particular, the Examiner proposed to amend independent Claim 1 to incorporate the features of dependent Claim 3, and to further recite that "the plurality of memory cells connected to the one bit line includes cells having different maximum predetermined capacitance of their capacitors." The Examiner proposed to amend independent Claims 9 and 13 in an analogous manner.

Further, Applicants wish to thank the Examiner for the telephone discussion with Applicants' representative on August 12, 2009, at which time an Examiner's Amendment to the claims was authorized. The Examiner indicated that he would enter the Examiner's Amendment in order to place the present application in condition for allowance.

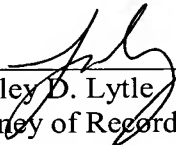

Accordingly, it is respectfully submitted that this statement is a proper recordation of the substance of the interviews of August 10, 2009, and August 12, 2009, in compliance with MPEP § 713.04.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,
MAIER & NEUSTADT, P.C.
